

EMERGENCY MANAGEMENT SYMPOSIUM

Working Together – The Road to Resiliency

November 17-18, 2010
The Old Mill Inn & Spa
Toronto, Ontario

BACKGROUND

In November 2008, the first Toronto Emergency Management Symposium was held at The Old Mill. The theme of last year's conference was "Communicating for Success" and featured guest speakers, plenary and concurrent sessions. Many professionals, experts and community members with first-hand experience in the emergency management field attended.

This year's Symposium, "Working Together – the Road to Resiliency", will showcase some of the most significant emergency management events in 2010.

The 2010 Toronto Emergency Management Symposium will provide you with an opportunity to network with like-minded professionals from disaster management, business continuity, emergency response and recovery sectors. Your organization will have exposure to professionals with an interest in the products and services you can provide.

Do not miss this opportunity to meet with those in charge of preparing for, responding to and recovering from major disasters.

PARTNERSHIP OPPORTUNITIES

In order to recognize the level of commitment and participation of sponsors and partners, and to provide some understanding of emergency management organizations in Ontario, a scale of sponsorship opportunities has been developed for your consideration.
